Elite Cabinetry

Come Experience the Difference

Elite Cabinetry opened their showroom in La Quinta back in November of 2018. The community welcomed the new business and the response was overwhelming. From the start it was a very positive experience. It is a quiet place to look around, familiarize yourself with the products, and plan your design in a relaxed creative environment.

Elite Cabinetry's beginnings date back to 1978, when owner Brian Beavers started working as a cabinetmaker and learning the trade. After becoming a skilled craftsman, he helped produce and install high end custom cabinetry in many Los Angeles area businesses and residences. Since May of 1985, Brian and his wife Pam have owned and operated Elite Builders, specializing in complete home remodeling. After relocating to the Coachella Valley in 1992, they continued their home remodeling business, putting an emphasis on kitchen and bathroom spaces.

Elite Cabinetry provides a full scope of services from start to finish for your remodeling project, including new cabinetry, cabinet refacing and refinishing, painting cabinets, countertops, hardware, decorative tile, flooring and other home renovation projects. Their cabinet designers can create the kitchen and bathroom both flattering and functional to your own individual style while working with architects, designers, contractors, and homeowners themselves. They will come to your home to measure and at that time they will consult with you and your ideas to put together a detailed list for your design.

Elite Cabinetry emphasizes complete customer service from start to finish of every project they do. This is achieved by listening to the

specific needs of each client, direct communication, staying on budget, being prompt, and leaving a clean work area at the end of each day. They feel satisfaction when their services are completed as promised and they see the same satisfaction in their client's eyes.

Elite Cabinetry is committed to customer service, which is an essential element to making each project an effortless personalized experience.

Better customer service was the basis for deciding to open the showroom. They wanted a physical storefront where their perspective clients could come

in, leisurely browse, and gain knowledge for their future projects. The ability to interact with clients on a personal level while offering them suggestions and solutions, is a vital part of the process in making their dreams become a reality.

'We are excited about this new venture.

It gives us the opportunity to serve residents of the Coachella Valley for many years to come''.

ALUMAWOOD
BY AMERIMAX

**SOLID OR OPEN
LATTICE COVERS**

SHADE EXPERTS

Rooms N' Covers Etc. has built a strong reputation in building quality patio products since 1972. Their success is attributed to their continual commitment of providing every customer with a quality product they will enjoy at a price they can afford.

This work ethic has led to Rooms N' Covers again being named the #1 Alum-A-Wood Patio Cover Company in the United States for the tenth year in a row. Their showroom is completely furnished so that you can see, touch, and imagine your dream room or backyard. Most companies only offer a picture and a promise—Rooms N' Covers let's you experience it.

THE UNFILTERED TRUTH ABOUT WATER SOFTENERS

Did you know that even when water appears clear, there may be chlorine, chloramines and organic contaminants in every drop? This is why choosing a water system that filters your water is essential for your home and well-being.

Water softeners typically come to mind when you think of water treatment. However, it's a hidden secret that they don't actually filter your water. Softeners add salt and replace healthy minerals with sodium ions. The result is salty, undrinkable water. A reverse osmosis (R.O.) system can be added to remove salt but R.O. systems waste 4 gallons of water for every gallon made.

Excess sodium in water prevents cities from reusing home wastewater for irrigation and farming. Considering water softeners also come with the additional cost and maintenance of buying salt and changing filters, it's baffling why anyone would use this outdated technology.

A salt-free water filtration system transforms your home into a clean water oasis. Enjoy great tasting water from every faucet and filter out harsh chemicals for softer skin and hair. Taste and feel the difference filtered water makes with every sip, meal, shower and load of laundry.

Say goodbye to the hassle of water softeners, bottled water and reverse osmosis units with one simple solution. A salt-free *LifeSource Whole House Water System*, gives you filtered and conditioned water for your entire home. LifeSource systems are *maintenance free* and extend the lifespan of your pipes and appliances by preventing hard water scale buildup. Live life with great tasting, high quality water.

TASTE AND FEEL THE DIFFERENCE

Bringing the Indoors Out: **2020 Outdoor Living Trends**

2020 outdoor living trends are all about enjoying your backyard alfresco - but with the comfort and ease you expect from your indoor spaces.

Today's outdoor spaces are transforming into an extension of the home. The current outdoor design also takes into account the look and feel of your entire home, including the interior and exterior, building materials and surroundings.

Connecting with nature: Biophilic design

Biophilic design is achieved when natural elements are incorporated into the space, helping people feel connected to the natural environment. It creates a calm, tranquil space and reduces stress. Biophilia makes sense for indoor urban environments needing to bring the outdoors in, but how does it work when you're already outside?

Biophilic design for outdoor spaces means integrating natural elements with constructed elements to create a harmonious space. A plant wall or raised garden bed can integrate greenery and pops of color with the built elements of your outdoor space. It also means using natural materials, like wood and stone, to complement the surrounding environment.

DESIGN + BUILD

Create greener, more sustainable spaces to celebrate the environment, which can help encourage pollinators, grow healthy food and forge a cohesive outdoor space. You can also use materials such as Belgard's permeable pavers, which allow water to drain through the surface, replenishing the soil and aquifers beneath your path, walkway or driveway.

Sleek, modern design

While it may seem contrary to the more organic approach of biophilic design, the contemporary trend toward sleek, modular furniture can enhance your outdoor space.

Modular, sectional pieces with clean lines and streamlined design can be arranged and re-arranged to accommodate any natural elements you want to incorporate in your space, or to handle different numbers of guests when entertaining.

The minimalist approach to furnishings also allows the natural elements around you to take center stage.

Multifunctional spaces

Whether your home is in an urban area with limited green space, or you want to optimize your outdoor living, get creative:

- Add vertical planters
- Hang hammocks for lounging
- Create built-in seating
- Build raised garden beds

Entertaining both night and day

Regardless of the time of day - or year - you and your family can relax comfortably in your outdoor sanctuary, thanks to modern technology and the latest outdoor installations:

- LED lighting is installed in a variety of ways. You can install strips of light and/or spotlights, even using multiple colors, to add flair at night.
- In the harsh sunlight, large umbrellas and movable shade walls or screens can keep your space cool and more comfortable.
- For cooler climates, an outdoor fireplace provides heat and light for cozy evenings in the yard.

Whether you have a straightforward vision for a patio or dream of elaborate outdoor living spaces, these ideas can help you create your oasis.

Something **WILD** is coming to El Paseo

Award-winning interior designers Steven Reed Love and Jeffrey Jones announce the opening of their latest design collaboration project -- "Wildest" restaurant in Palm Desert.

Jeffrey Jones, a two-time president of the Palm Springs Chapter of The American Society of Interior Designers, A.S.I.D., and Steven Reed Love, founder of Egg & Dart Palm Desert, Los Angeles and Denver, were approached by Bill Hay, Charissa Farley and award-winning chef Eric Wadlund 12 weeks ago and given the opportunity to collaborate, creating a one-of-a-kind restaurant and contemporary dining experience.

"Together with Terrance Ross Construction, and his assistant, Moose, our Designers pulled off the impossible. People said we couldn't pull it off in such a short lead time," Farley said.

Wildest chef Wadlund has created a unique menu and offers plant-based and organic items, as well as grass-fed beef and wild-caught fish. The design team said the chef was a part of every design decision. Eric's experience and vision were an inspiration, and the entire plan was developed under his careful eye.

Jones, focusing on the architectural details, worked in partnership with his son, Casey Jones, an aspiring architect and recent recipient of Palm Springs Life magazine's "Forty-under-forty" assisting the team in bringing the project's

conceptual plans. Jones and Love laid out the restaurant to have defined dining areas with gracious traffic patterns. Moreover, every part of the restaurant has its own distinct

features, such as the bar's platinum-gold drip wallpaper, which was custom made.

The restaurant launched with its opening party to rave reviews. There's really nothing like it in the desert. Party-goers were mesmerized by the wildest design motif -- a dreamy exotic dining lodge from the Serengeti plains in Africa adorned with wild extinct animals. Love says, "We began the design process with this single design element." Leading from that single design element, complementary wallpapers and framed

illustrations of the hypothetical animals, all individually named, were curated from Egg & Dart, the premier resource for Interior Designers and Architects in the valley.

"It turned out to be beyond our expectations," says Farley. "The response to the décor has been overwhelming. The use of juxtaposed lighting fixtures defines space and gives our customers a great vibe, a sense of whimsy and an exotic dining environment."

Farley says, "When we engaged Jeffrey Jones and Steven Reed Love, we knew

we had assembled a team of the most talented designers in the desert, but the end result is, well, the wildest!"

MEET DR. DELL'ACQUA

General and Cosmetic Dentist

A graduate of the prestigious University of the Pacific School of Dentistry in San Francisco, she has a private general dentistry practice in Palm Desert, California, with an emphasis on cosmetic and reconstructive dentistry. She has been at the same location for 23 years, serving the valleys residents. Known for her smiles dubbed “The Dell’Acqua Smile”, Dr. Dell’Acqua is a brilliant artist who uses her innate ability to create natural and believable smiles with crowns and veneers. Her technical skills are unsurpassed, with the combination of the two giving her the edge in this cosmetic dental industry.

New Water-Efficiency Rebates Available

High-Efficiency Washing Machine

Residential customers can receive a rebate of up to \$150 for installing a new high-efficiency washing machine.

Hot Water Recirculating Pump

Residential customers can receive a rebate of up to \$150 for installing a new high-efficiency washing machine.

Visit cvwd.org/rebates for program details and eligibility requirements.

YourWater
is our promise

(760) 398-2651
cvwd.org/rebates

CVWD Announces New Rebates for Washing Machines, Hot Water Pumps

By the Coachella Valley Water District

Coachella Valley Water District (CVWD) is offering two new water efficiency rebates for residential customers who install a new high-efficiency (HE) washing machine or a hot water recirculating pump in their home.

HE Washing Machines

HE washing machines can use about 25% less energy and 33% less water than regular machines. Qualifying washing machines must be Energy Star Certified HE models with a Water Factor of 4.5 or less. Eligible machines are listed at www.energystar.gov.

CVWD will offer a maximum of \$150 rebate per installed HE washing machine.

The rebate is limited to one per household for a single-family home or one rebate application per unit for a multifamily dwelling duplex, triplex or fourplex.

Recirculating Pumps

Hot water recirculating pumps save water and energy by reducing the wait time for hot water to arrive at the faucet or shower. The compact devices return unused hot water back to the water heater.

CVWD will offer a maximum \$125 rebate, or the cost of the installed pump, whichever is less.

The rebate is limited to one per household for a

single-family home or one rebate application per unit for a multifamily dwelling duplex, triplex or fourplex.

These rebates are both pilot programs and will be available only until funds are exhausted.

How to get a rebate

For both rebates, customers must provide a completed application, color photo of the installed washer or pump within 60 days of purchase and the original sales receipt or the contractor's invoice if purchased through a plumber or contractor.

The programs are not for new construction. Funds are limited and available on a first-come, first-served basis. Reimbursements are made after all program conditions have been met.

Applications for the rebate programs are available online at www.cvwd.org/rebates or they can be picked up at CVWD's Water Management Office, 75-525 Hovley Lane, Palm Desert.

- ✓ Insect-Proof
- ✓ Non-Warping

Introducing the Kitchen & Bath Remodel that feeds the **MIND | BODY | SOUL**

Kitchen and bath specialist, Lynn Wallace has been living a bona fide organic life for years. The result is the lifestyle change that so many are looking for in 2020. Lynn is using her experience to evolve the traditional and out-dated kitchen to a bright, spacious, and blissful haven of health, wellness and happiness.

Are you ready for a healthy mind and better organized space full of rejuvenation for your life? It's time to reinvent your kitchen and bath design. Good for you. Good for the planet. Five key areas that are receiving the biggest revamp are:

- ✓ Space planning that optimizes utilization for a healthy happy life
- ✓ Sophisticated cabinet storage for ideal use
- ✓ Appliances that perform with precision to preserve nutritional density
- ✓ Healthier happier lighting design
- ✓ Bacteria free countertops with clean lines

A re-imagined layout has efficient workstations that help prevent food and water waste. It welcomes convenient conversation spaces while still providing ample room for task stations. Islands are a cornerstone featuring incubators for micro-greens, a central drain for easy clean up and separate trash and compost compartments.

Gone are the days when cabinets and appliances were just for storage and cooking. They now serve as the epicenter for healing and nurturing good health. Cabinets display food in appetizing way to encourage organic eating habits. Kitchen cabinets are consciously selected for their natural wood-seals and paints that are low or no VOC, improving air quality. Quartz is a popular choice for countertops because of their non-porous characteristics that are stain resistant, easy to clean and disinfect.

Appliances are crucial to keeping healthy food fresh. They maintain proper temperature zones and nutrient values. For example, not all vegetables maintain their nutritional integrity at the same

Photo from Urban Cultivator

temperature. Fruits should be separated from vegetables to keep their natural ethylene gasses from over-ripening them.

The new Wellness Kitchen serves as a better reflection of our mind, body and environment.

Host Your Next Group Celebration in California

VisitCalifornia.com edited by YourVilla Magazine Staff

There's no better excuse than a birthday, bachelorette party or family reunion to plan a trip to California. Throughout the Golden State, there are unique spots that are perfect for hosting a celebration that will be remembered long after the candles are blown out and the last sip of bubbly is drunk.

Photo courtesy of winerose.com

Wine & Roses

Lodi — Make memories sipping the artisan wines of Lodi with a group trip to Wine & Roses in the heart of the San Joaquin Valley. The boutique hotel features 66 historic, garden and spa rooms. Plan a day touring wineries and tasting the Zinfandel the area is known for, or relax with a massage in the spa.

Madonna Inn

San Luis Obispo — The world-renowned whimsical Madonna Inn in SLO is the ideal setting for an over-the-top girlfriend getaway. Each suite is themed, from The Barrel of Fun to The Time of Your Life. The property has a host of event spaces including the Secret Gardens and Gay 90s ballroom. Don't miss indulging in a slice of the famous Madonna cake.

52 | YourVilla Magazine

Photo courtesy of oasisatdeathvalley.com

The Oasis

Death Valley — Enjoy the coolest trip in the hottest place in the world at the historic Oasis at Death Valley resort. Play a round on the world's lowest golf course, stargaze at the Milky Way with the naked eye, or relax in one of the spring-fed pools. The property features the AAA Four Diamond Inn at Death Valley and the family-focused Ranch at Death Valley, which both underwent a recent \$100 million renovation.

El Capitan Canyon

Santa Barbara — Set on 350 acres of Santa Barbara coast with ocean and mountain views, El Capitan Canyon gives groups modern hotel amenities in unique accommodations including yurts, cedar cabins and tents. The property features private hiking trails, swimming, and a rope course perfect for corporate team building.

The Hoxton

Los Angeles — Located in the up and coming Fashion District in downtown Los Angeles, The new Hoxton Hotel is the ideal getaway for the arts crowd. With a rooftop pool, two unique restaurants and nearly 2,000 sq. ft. of event space in the trendy Apartment meeting venue, The Hoxton is ready for your group to strut down its catwalk.

Santa Monica Proper Hotel

Santa Monica — With a laid back approach to luxury, the new Proper Hotel beckons groups with the Westside's only rooftop pool, a restaurant helmed by not one, but two James Beard award-winning chefs, and a spa led by an Ayurvedic guru. With 24,000 sq. ft. of flexible meeting space the hotel is perfect for a proper event or a weekend getaway with friends.

BOTTAIA

Temecula Valley — Called San Diego's best wine

experience in 2019, Bottaia knows that wine and parties are a match made in heaven. Sophisticated Italian style is paired with indoor and outdoor event spaces including the cask-lined fermentation room, a terrace overlooking rolling vineyards and even a chic pool and cabana option. Keep up the wine theme staying at the nearby Ponte Vineyard Inn. Ranch at Laguna Beach

Photo courtesy of theranchlb.com

Laguna Beach — Converted from the original 1800s homestead the Treehouse is the perfect group accommodation at The Ranch at Laguna Beach, a National Geographic Unique Lodges of the World property. The architectural gem is nestled high on a hill and wrapped in windows for full panoramic views of the surrounding canyon and grounds. With 1600 sq. ft. of space and two bedrooms it's ideal for a family getaway or couples trip.

The Maritime Museum

San Diego — The Maritime Museum is known worldwide for restoring and operating historic sailing vessels. With a fleet of unique ships, everything from team building experiences to themed events and even weddings can be hosted at the museum. The nearby historic The U.S. Grant Hotel makes for the perfect home for your sailors to bed down after the event.
